1. MULTIPLIER EVENTS

Multiplier Events will be organised under **WP4** to disseminate the completed outputs of the ECoDN-HUB project, facilitate knowledge transfer, enhance project visibility, and strengthen the wider impact and sustainability of the project results across partner countries.

Under **WP4.3**, six national seminars will be implemented across the partner countries. Each partner institution will organise one national Multiplier Event in its respective country in accordance with the project dissemination strategy.

The events will provide an opportunity to introduce the completed project outputs to relevant target groups and stakeholders from the higher education, healthcare, professional, and policy sectors.

Implementation Period: June – 30 October 2026

Allocated Budget:

- Coordinator institution: **€4,000**
- Each partner institution: **€2,000**

The allocated budget will be used for eligible dissemination and event organisation activities in accordance with the project requirements.

2. AIM OF THE EVENT AND WP LINKAGE

The overall purpose of the WP4.3 Multiplier Events is to ensure the effective dissemination, visibility, uptake, and wider use of the outputs developed within the ECoDN-HUB project.

The specific aims are:

- To introduce the ECoDN-HUB project, its objectives, activities, and main achievements;
- To disseminate the completed project outputs;
- To share the knowledge, educational resources, and innovative learning materials developed within the project;
- To promote innovative educational approaches in disaster nursing;
- To increase awareness of disaster nursing competencies;
- To enhance the visibility of the ECoDN-HUB project at national and institutional levels;
- To facilitate knowledge transfer between higher education institutions and the healthcare sector;
- To encourage the use of project outputs by students, educators, nurses, healthcare professionals, and other relevant stakeholders;
- To strengthen collaboration between education, healthcare, professional organisations, and policy stakeholders;
- To contribute to capacity building in disaster nursing;
- To support the sustainability and wider use of the project outputs beyond the project lifetime.

The following completed project outputs will be disseminated during the Multiplier Events:

1. General information about the ECoDN-HUB project and its achievements;
2. Scenario Guideline;
3. AR/VR Scenarios;
4. AR/VR Videos;
5. Educational Animation;
6. Disaster Nursing Handbook;
7. Disaster Nursing Curriculum.

3. PARTICIPANT PROFILE AND SELECTION CRITERIA

The Multiplier Events will ensure **multidisciplinary and cross-sectoral participation** to maximise dissemination, knowledge transfer, and wider impact.

Target participants will include:

- Undergraduate and postgraduate students interested in developing disaster nursing competencies;
- Nursing students and students from relevant health disciplines;
- Nurse educators and academic staff;
- Practising nurses;
- Healthcare professionals;
- Representatives of hospitals and healthcare institutions;
- Representatives of professional organisations, including associations, chambers, and foundations;
- Representatives of relevant educational organisations;
- Health sector stakeholders;
- Policymakers and decision-makers;
- Relevant public authorities and institutional representatives;
- Media representatives;
- Other stakeholders with an interest in disaster nursing, disaster preparedness, health education, and innovative learning technologies.

Partners should aim to ensure diversity among participants and representation from both the **education and healthcare sectors**.

4. IMPLEMENTATION PROCESS

Each partner institution will organise one Multiplier Event in its respective country in accordance with the objectives of WP4.3 and the project dissemination strategy.

Each event should include, at minimum:

- An official event agenda/programme;
- Registration and participant lists;
- Presentations introducing the ECoDN-HUB project;
- Presentations and/or demonstrations of the completed project outputs;
- Dissemination materials;
- Visual evidence, including photographs and, where applicable, screenshots;

- Opportunities for interaction and knowledge exchange with participants;
- Information on accessing and using the project outputs.

During the event, partners will present and promote the following project outputs:

- General information about the ECoDN-HUB project;
- Scenario Guideline;
- AR/VR Scenarios;
- AR/VR Videos;
- Educational Animation;
- Disaster Nursing Handbook;
- Disaster Nursing Curriculum.

Where appropriate, practical demonstrations of the digital and educational resources should be incorporated into the programme to facilitate participants' understanding of their potential use in disaster nursing education and practice.

The events should also create opportunities for dialogue among academic staff, students, nurses, healthcare professionals, professional organisations, policymakers, and other relevant stakeholders.

5. REACH AND ENGAGEMENT

The target number of participants is:

- **Akdeniz University: 100 participants**
- **Each partner institution: 40 participants**
- **Total expected reach: 300 participants across partner countries**

Partners should make reasonable efforts to reach the agreed participant targets and ensure multidisciplinary representation.

Participant engagement should be encouraged through presentations, demonstrations, question-and-answer sessions, discussions, and exchange of experiences where appropriate.

The Multiplier Events are expected to bring together stakeholders from the education and healthcare sectors and thereby facilitate broader dissemination of project outputs and knowledge transfer.

6. DISSEMINATION AND VISIBILITY

The Multiplier Events constitute an important component of the ECoDN-HUB dissemination strategy.

Partners should promote the events and their outcomes through appropriate institutional and project dissemination channels.

Where applicable, dissemination activities may include:

- Institutional websites;
- Project website/platform;
- Social media channels;
- Institutional communication channels;
- Professional networks;
- Relevant stakeholder networks;
- Event announcements and invitations;
- Posters, brochures, flyers, or other dissemination materials;
- Photographs and event-related visual materials.

All dissemination and communication activities should comply with the applicable **Erasmus+ visibility and acknowledgement requirements**.

Project identification information and the required funding acknowledgement/disclaimer should be included in relevant event and dissemination materials, where applicable.

7. EXPECTED DISSEMINATION IMPACT

The Multiplier Events are expected to contribute to:

- Increased awareness of disaster nursing and disaster nursing competencies;
- Increased awareness and visibility of the ECoDN-HUB project and its outputs;
- Wider dissemination of the Scenario Guideline, AR/VR scenarios, AR/VR videos, educational animation, Disaster Nursing Handbook, and Curriculum;
- Increased awareness of innovative and technology-supported learning approaches;
- Promotion of AR/VR-supported learning approaches in disaster nursing education;
- Enhanced knowledge exchange between higher education and healthcare sectors;
- Strengthened interaction between academia, healthcare professionals, professional organisations, and policymakers;
- Increased potential for the future use and integration of project outputs in education and training;
- Enhanced visibility, transferability, and sustainability of the project results.

Through the national events, project outputs will reach a wider audience beyond the direct project partnership.

8. SUSTAINABILITY AND WIDER IMPACT

The Multiplier Events will contribute not only to the dissemination of project results during the project period but also to their sustainability beyond the project lifetime.

The dissemination of the Scenario Guideline, AR/VR scenarios, AR/VR videos, educational animation, Disaster Nursing Handbook, and Curriculum to relevant target groups will increase their visibility and facilitate their potential future use in nursing education, disaster preparedness training, and relevant professional development activities.

The events will also support:

- Continued awareness and use of ECoDN-HUB educational resources;
- Knowledge sharing between higher education and healthcare institutions;
- Transfer of innovative educational approaches to different educational and professional settings;
- Increased stakeholder awareness of disaster nursing competencies;
- Opportunities for future institutional and professional collaboration;
- Wider uptake and potential integration of the developed resources into relevant educational and training activities.

Partners are encouraged to continue disseminating and promoting the project outputs through their institutional and professional networks after completion of the Multiplier Events.

9. EVALUATION AND EVIDENCE COLLECTION

Each partner institution will systematically collect evidence demonstrating that the Multiplier Event has been implemented in accordance with WP4.3 requirements.

Evidence should include:

- Final Multiplier Event programme/agenda;
- Participant/attendance lists;
- Photographs from the event;
- Screenshots, where relevant;
- Presentations used during the event;
- Dissemination and visibility materials;
- Event announcements and/or invitations, where available;
- Other relevant supporting documents demonstrating implementation and dissemination.

Evidence should clearly demonstrate:

- That the event took place;
- The institution organising the event;
- The date and context of the event;
- Participation of the relevant target groups;
- Presentation and dissemination of the ECoDN-HUB project outputs;
- Visibility of the project and Erasmus+ support, where applicable.

Where participant feedback or another evaluation method is used, the results may also be included in the event report as additional evidence of participant engagement and perceived usefulness of the event.

10. REPORTING PROCESS

Each partner institution will prepare a **National Multiplier Event Report within 15 days after the event.**

The report and all supporting evidence will be uploaded to the project platform and shared with the consortium.

The report should provide clear and concise evidence of:

- Event implementation;
- Achievement of the event objectives;
- Participant profile and reach;
- Dissemination of project outputs;
- Stakeholder engagement;
- Dissemination and visibility activities;
- Expected or observed impact;
- Contribution to sustainability and wider use of project outputs.

The information reported should be consistent with the supporting evidence provided in the annexes.

11. CONTENT OF THE NATIONAL MULTIPLIER EVENT REPORT

Each National Multiplier Event Report should include the following sections:

1. Institution and Event Information

- Name of partner institution;
- Country;
- Event title;
- Date;
- Venue/location;
- Organising institution/unit;
- Number of participants.

2. Aim of the Event

A brief description of the purpose of the Multiplier Event and its relationship with WP4.3 and the overall objectives of the ECoDN-HUB project.

3. Participant Profile

Information on:

- Total number of participants;
- Main participant groups;
- Representation from education and healthcare sectors;
- Relevant stakeholders involved.

4. Implemented Event Programme and Activities

A concise description of:

- Sessions conducted;
- Presentations delivered;

- Demonstrations carried out;
- Stakeholder interaction and discussions;
- Other relevant event activities.

5. Disseminated Project Outputs

Description of how the following project outputs were introduced and disseminated:

- General information about the project;
- Scenario Guideline;
- AR/VR Scenarios;
- AR/VR Videos;
- Educational Animation;
- Disaster Nursing Handbook;
- Disaster Nursing Curriculum.

6. Dissemination and Visibility Activities

Description of the channels and materials used to promote the event and disseminate its results.

7. Dissemination Impact and Participant Engagement

Description of:

- Participant engagement;
- Knowledge sharing;
- Stakeholder interaction;
- Contribution to awareness of disaster nursing;
- Potential use of the disseminated outputs.

8. Evaluation Process and Main Results

Where applicable, a summary of participant feedback or other evaluation activities conducted during or after the event.

9. Sustainability and Wider Impact

Description of how the event contributes to:

- Continued use of project outputs;
- Wider dissemination;
- Institutional uptake;
- Knowledge transfer;
- Future collaboration;
- Sustainability of project results.

10. Conclusion

A concise assessment of the implementation of the Multiplier Event and its contribution to WP4.3 objectives.

11. Annexes – Mandatory Supporting Documents

All relevant evidence should be attached to the report.

12. ANNEXES – MANDATORY SUPPORTING DOCUMENTS

The National Multiplier Event Report should be accompanied by the following supporting documents, as applicable:

Annex 1 – Final Event Programme/Agenda

Annex 2 – Participant/Attendance List

Annex 3 – Event Photographs

Annex 4 – Screenshots, where applicable

Annex 5 – Presentations

Annex 6 – Dissemination Materials

Annex 7 – Event Announcement/Invitation Materials, where available

Annex 8 – Evaluation/Feedback Evidence, where applicable

Annex 9 – Other Relevant Supporting Documents

All supporting evidence should be organised systematically and clearly linked to the information presented in the National Multiplier Event Report.
